

Luecke

ROOFING & SIDING LLC

900 Cobblestone Drive
Howards Grove, WI 53083
920-467-2518

Company History

Founded in 1973, Luecke Roofing & Siding started as a small business located in Howards Grove Wisconsin, eventually expanding to service customers throughout Sheboygan County and its surrounding areas. As Luecke Roofing & Siding continues to grow we still enjoy forming genuine, long lasting relationships with our customers which has allowed us to stay a thriving business for over 50 years. Luecke Roofing & Siding is a fully licensed and insured/bonded business - Contractor # DC-062100709

Scope of Work

- Secure necessary permits - **Homeowners are responsible to secure any permits** required for the project. (Building Permits may or may not be required - check your local ordinances)
- Tear-off all areas of existing roofing material down to the wood deck below. All asphalt shingles will be hauled away and recycled. Removal of shingles can cause debris in the attic (especially when cedar shakes are present) - Homeowners are responsible for cleaning the attic space.
- Decking - if rotted or damaged decking is found after tear off - Decking will be replaced at a rate of \$55.00 per 4'x8' sheet.
- For multi-scope projects, you will have multiple project start dates. Typically roofing is completed before any windows or siding/trim projects. Gutters will always be the last part of the project when doing multiple scopes of work.

Warranty

Luecke Roofing is an Owens Corning Preferred Contractor, ensuring that your roof is installed with the highest standards in the industry, giving our customers a 30 year full replacement warranty.

Clean-up

Customer satisfaction is extremely important to Luecke Roofing & Siding. We take job site clean up very seriously and are conscious of your property, your pets and the property that they occupy. We will always clean up to your satisfaction. If there is something we missed, please call us and we will rectify the situation immediately.

Payment Structure

Down Payment is required at the time of signing the contract - (25% of the overall estimated total)
Customers will be invoiced upon the project's completion for the remainder of the balance.

Due to increased volatility in material costs and supply chain issues the price may be adjusted to reflect appropriate changes prior to obtaining a signed contract . Estimates and pricing are good for 30 days.
